For sale: a historic building associated with Henning Kiss Katalin (1935–2021), a painter born in Körmend and a notable figure of the Western avant-garde. She emigrated to the Federal Republic of Germany in 1956, studied in Hamburg, and graduated from the Academy in Munich; her classical modern, nonfigurative works are distinguished by nuanced shades of blue. She exhibited regularly in German and Austrian venues, maintained her Hungarian identity and strong ties to Körmend, and in 2014 offered a significant part of her oeuvre to her hometown. She later lived and worked in Szentgyörgyvár, where her studio was also located.
